## **History Of Telanganatelangana:**

The Oxford History of Hinduism: The Goddess Mandakranta Bose, 2018-05-30 The Oxford History of Hinduism The Goddess provides a critical exposition of the Hindu idea of the divine feminine or Dev conceived as a singularity expressed in many forms With the theological principles examined in the opening chapters the book proceeds to describe and expound historically how individual manifestations of Dev have been imagined in Hindu religious culture and their impact upon Hindu social life In this quest the contributors draw upon the history and philosophy of major Hindu ideologies such as the Puranic Tantric and Vaishnava belief systems A particular distinction of the book is its attention not only to the major goddesses from the earliest period of Hindu religious history but also to goddesses of later origin in many cases of regional provenance and influence Viewed through the lens of worship practices legend and literature belief in goddesses is discovered as the formative impulse of much of public and private life The influence of the goddess culture is especially powerful on women's life often paradoxically situating women between veneration and subjection This apparent contradiction arises from the humanization of goddesses while acknowledging their divinity which is central to Hindu beliefs In addition to studying the social and theological aspect of the goddess ideology the contributors take anthropological sociological and literary approaches to delineate the emotional force of the goddess figure that claims intense human attachments and shapes personal and communal lives

**Rival Claims** Bethany Ann Lacina,2017-02-07 In this study of struggles for ethnoterritorial autonomy Bethany Lacina explains regional elites decision whether or not to fight for autonomy and the central government s response to this decision In India the prime minister s respective electoral ties to separate rival regional interests determine whether ethnoterritorial demands occur and whether they are repressed or accommodated Using new data on ethnicity and sub national discrimination in India national and state archives parliamentary records cross national analysis and her original fieldwork Lacina explains ethnoterritorial politics as a three sided interaction of the center and rival interests in the periphery Ethnic entrepreneurs use militancy to create national political pressure in favor of their goals when the prime minister lacks clear electoral reasons to court one regional group over another Second ethnic groups rarely win autonomy or mobilize for violence in regions home to electorally influential anti autonomy interests Third when a regional ethnic majority is politically important to the prime minister its leaders can deter autonomy demands within their borders while actively discriminating against minorities *Rival Claims* challenges the

conventional beliefs that territorial autonomy demands are a reaction to centralized power and that governments resist autonomy to preserve central prerogatives The center has allegiances in regional politics and ethnoterritorial violence reflects the center's entanglement with rival interests in the periphery
