to explain how state violence against a range of groups has emerged in tandem with the rise of the West to global dominance and the emergence of increasingly streamlined homogenous states Levene contends that it is in the relationship of these nation states to each other that we will find the well springs of some of the most poisonous tendencies in the modern world Thought provoking and beautifully constructed *The Meaning of Genocide* is the first of a major four volume survey *Genocide in the Age of the Nation State* which examines its subject within an extensive global and historical framework and which will become the definitive work on the subject *Becoming a Master Manager* Robert E.
