The Facilitating Partnership Jeffrey S. Applegate, Jennifer M. Bonovitz, 1995-04 A young mother suspected of abusing her toddler a severely behavior disordered teenager who faces expulsion from his community residence a depressed and illiterate homeless man who fears psychiatric evaluation These clients populate the caseloads of most mental health professionals who often view them as too crisis ridden deprived and overwhelmed with concrete needs to benefit from an in depth approach to their problems However without this kind of treatment such people continually reappear at social service agencies their core psychological issues left unaddressed and their life situations unraveling What can psychoanalytic theory offer practitioners working with these challenging clients Although the helping professions have enjoyed a long and fruitful association with psychoanalysis often the application of this theory has focused on treating motivated articulate financially secure clients in private practice In The Facilitating Partnership Jeffrey Applegate and Jennifer Bonovitz show how D W Winnicott's therapeutic ideas and technique are particularly relevant to a agency based psychodynamic treatment of clients whose

histories of deprivation and trauma historically have made them unlikely and reluctant candidates for in depth clinical services Winnicott s concepts are especially powerful in capturing the silent supportive sustaining relationship based dimensions of clinical work and the authors provide an accessible language for explicating these invaluable activities Through extensive case vignettes Applegate and Bonovitz demonstrate that interventions emerging from Winnicott s key concepts the good enough mother the holding environment can bolster clients ego strengths and coping capacities while promoting their psychosocial development in ways that help them profoundly alter maladaptive life patterns A Jason Aronson Book

Winnicott and Labor's Eclipse of Life Nathan

Gerard,2023-09-11 Nathan Gerard draws upon the pathbreaking insights of pediatrician and psychoanalyst D W Winnicott to offer a new set of ideas in the novel domain of contemporary work life and its discontents Locating Winnicott within a broad landscape of critical scholarship that dissects work s perils the book positions Winnicott as both a radical critic and creative advocate for building a different kind of work life one that might make room for the presence of self By shuffling the discourse on neoliberal subjectivity to reclaim what Winnicott calls unit status of the separate self Gerard differentiates Winnicott from the relational tradition by advocating for Winnicott s non relational aspects Through such analysis the book reveals how work and home have become two sides of the same impoverished coin each contributing to a legitimately bad environment that perpetuates self absence and annihilates one s unique sense of feeling real and alive Winnicott and Labor s Eclipse of Life will be of interest to readers of Winnicott and psychoanalysis organization and management studies and anyone hoping to deepen their engagement with the dynamics of contemporary work life **Psyche and Ethos** Amanda

Anderson,2018-03-21 We live in a psychological age Contemporary culture is saturated with psychological concepts and ideas from anxiety to narcissism to trauma While it might seem that concern over psychological conditions and challenges is intrinsically oriented toward moral questions about what promotes individual and collective well being it is striking that from the advent of Freudian psychoanalysis in the late nineteenth century up to recent findings in cognitive science psychology has posed a continuing challenge to traditional concepts of moral deliberation judgment and action all core components of moral philosophy and central to understandings of character and tragedy in literature Psyche and Ethos Moral Life After Psychology explores the nature of psychology s consequential effects on our understanding of the moral life Using a range of examples from literature and literary criticism alongside discussions of psychological literature from psychoanalysis to recent cognitive science and social psychology this study argues for a renewed look at the persistence of moral orientations toward life and the values of integrity fidelity and repair that they privilege Writings by Shakespeare Henry James and George Eliot and the powerful contributions of British object relations theorists in the post war period help to draw out the fundamental ways we experience moral time the forms of elusive duration that constitute loss grief regret and the desire for amends Acknowledging the power and necessity of psychological frameworks Psyche and Ethos aims to restore moral understanding and moral experience to a more central place in our understanding of psychic life and the literary tradition

After-Education Deborah P. Britzman,2012-02-01 In After Education Deborah P Britzman raises the startling question What is education that it should give us such trouble She explores a series of historic and contemporary psychoanalytic arguments over the nature of reality and fantasy for thinking through the force and history of education Drawing from the theories of Anna Freud and Melanie Klein she analyzes experiences of difficult knowledge pedagogy group psychology theory and questions of loneliness in learning education Throughout the book education appears and is transformed in its various guises as a nervous condition as social relation as authority as psychological knowledge as quality of psychical reality as fact

of natality as the thing between teachers and students as an institution and as a play between reality and fantasy **Donald Winnicott and the Politics of Care** Joanna Kellond, 2022-03-20 This book explores the significance of psychoanalyst Donald Winnicott's ideas for contemporary debates about care. Locating Winnicott in relation to a range of fields including psychology, philosophy, sociology, critical theory, and feminist theory, it examines the implications of his thinking for understanding and transforming the relationship between care and society. Winnicott was unique amongst psychoanalysts for the emphasis he placed on care in the development of subjectivity. The book unpacks Winnicott's understanding of care and assesses its relevance for conceptions of social responsibility, justice, and transformation. In a world where care is in crisis, how might we theorise the conditions necessary for the development of caring subjectivities and is it possible to infer a relationship between those conditions and progressive social change? This unique book will be of interest to readers in psychosocial studies, politics, and anyone concerned with thinking about the relationship between care and social transformation.

Discovering a Sermon Robert C. Dykstra, 2001 **Finding Space** Ann Belford Ulanov, 2001-01-01 In *Finding Space*, Ann Belford Ulanov argues that depth psychology in general and the work of D. W. Winnicott in particular offer vital new ways in which to apprehend religious life, especially Christian religious life. Her inspiration is rooted in Winnicott's influence on her work as an analyst and how his ideas have enriched her own Christian faith and religious understanding. In addition, Ulanov feels Winnicott's focus on the intensity of aliveness is an antidote to the plight of contemporary religion that it can be passionless or rote and thereby irrelevant to so many people. She expands Winnicott's concept of transitional space between self and other to apply to the space between the human and divine. She explores the importance of the illusionist element of God images in creative approaches to the divine. Other topics include the paradox transitional reality holds with subjective and objective notions Christians have of God, the inclusion of the body, specifically sexuality and aggression, and the struggle for integration within the self in the search for relationship with God and the importance of the feminine. In an especially helpful appendix, Ulanov includes Winnicott's thoughts on matters pertinent to religious life and thought.

Constructing Place Sarah Menin, 2004-02-24 This book is a cutting edge study exploring the field of the conception and the tectonic making of place as it impinges on and thus changes the site in which it is set. *The Hidden Order of Intimacy* Avivah Gottlieb Zornberg, 2022-03-29 A masterly analysis of the Book of Leviticus, the newest volume in the award-winning series of commentaries on the Hebrew Bible by a celebrated biblical scholar keen on weaving together traditional Jewish exegesis, psychoanalysis, and postmodern criticism. The New York Times Book Review: The image of the Golden Calf haunts the commentaries that thread through Leviticus. This catastrophic episode in which the Israelites, freed from Egyptian slavery and forty days after their momentous encounter with God at Mount Sinai, worship a pagan idol while Moses is receiving the Torah from God on the mountaintop, gives the mostly legalistic text a unique depth and resonance. According to midrashic tradition, the post-traumatic effects of the sin of the Golden Calf linger through the generations, the sin to be paid off in small

increments through time Post biblical perspectives view this as the diffusion of punishment as well as a way of addressing the on going phenomenon of idolatry itself These after effects of the Golden Calf incident are imaginatively explored in Avivah Zornberg s magnificent textual analysis She brings the rabbis of the Talmud medieval commentators Hasidic scholars philosophers psychoanalysts and literary masters from Aristotle and Rashi to the Baal Shem Tov Franz Rosenzweig Sigmund Freud and George Eliot into her pathbreaking discussion of the nature of reward and punishment good and evil Eros and Thanatos and humankind s intricate and ever fascinating encounter with the divine **Treating Trauma** Toni V.
