Homemade Money H. Richard Heede, 1995 The Carbon Buster's Home Energy Handbook Godo Stoyke, 2006-11-01
Most people are unaware that environmental problems such as climate change can be easily avoided at a profit through the intelligent application of appropriate technology The Carbon Buster's Home Energy Handbook describes how to achieve this goal in the residential field The first book in North America to provide a detailed carbon accounting of a family's carbon emissions and how to reduce them it systematically analyzes energy costs and evaluates which measures yield the highest returns for the environment and the pocketbook It provides answers to questions such as Which measure is more effective putting solar panels on your roof or buying a hybrid car Where do I need to invest first in high efficiency shower heads or solar tubes Is a 500 fridge that uses 800 kWh of power per year a good buy The book allows individuals to quickly and accurately assess which products are a good deal and which aren't It systematically analyzes residential carbon emissions and energy costs and prioritizes solutions based on highest carbon reductions and monetary returns yielding results that are often surprising The book enables readers to dramatically reduce their carbon emissions far below the levels targeted under the Kyoto Protocol At the same time readers implementing the recommendations will save an average of 15 000 in energy costs over the next five years **The High Performance Home**, 1998 **Homemade Money** H. Richard Heede, Owen Bailey, 1995 This book helps homeowners and renters sort through the bewildering array of new and old technology In no nonsense prose it explains how to save money and the environment how to improve energy efficiency and your standard of living *The Consumer's Guide to Effective Environmental Choices* Michael Brower, Warren Leon, 1999 A clear practical and rational overview of the choices consumers can make that will have a large positive impact on the environment and of the highly touted concerns that are not worth worrying about Copyright Libri GmbH All rights reserved **Food, Energy, and Society** David Pimentel Ph.D., Marcia H. Pimentel M.S., 2007-10-04 Since the publication of the first edition of Food Energy and Society the world's natural resources have become even more diminished due to the rapid expansion of the global human population We are faced with dwindling food supplies in certain geographic areas increasing pressure on energy resources and the imminent extinction of many *The Only Investment Guide You'll Ever Need* Andrew P.
