Louis Sullivan Prophet Of Modern Architecture Revised Edition:

Louis Sullivan, Prophet of Modern Architecture Hugh Morrison, 1998 This reissue provides Morrison's classic text completely redesigned and reset in a larger more modern format It also offers an assessment of Hugh Morrison's ground breaking research in Timothy J Samuelson's Introduction and most important an authoritative revision of the chronological List of Buildings including corrections of the data in light of six decades of research LOUIS SULLIVAN AND HIS MENTOR, JOHN HERMAN EDELMANN, ARCHITECT Charles E. Gregersen Aia Ncarb, 2013 Although the world famous architect Louis Sullivan praised John Edelmann at length as a friend philosopher gifted draftsman and above all as his benefactor in his The Autobiography of an Idea he avoided any mention of having worked for two years as an apprentice in Edelmann's architectural office and the influence that experience obviously had on his future work This book corrects that deficiency in Sullivan's narrative Through a comparison of their buildings and ornamental designs the differences in the approaches of these two men to architectural planning and the debt Sullivan owed to Edelmann's unique ornamental style in the development of his own world renowned ornament is demonstrated Edelmann is also revealed as the young architect who not only took Sullivan on as an apprentice but in time introduced him to his future partner Dankmar Adler only to be betrayed in the end by Sullivan for having done so **Louis H. Sullivan and a 19th-Century Poetics of Naturalized Architecture** Lauren S. Weingarden, 2017-07-05 For most of the twentieth century modernist viewers dismissed the architectural ornament of Louis H Sullivan 1856 1924 and the majority of his theoretical writings as emotional outbursts of an outmoded romanticism In this study Lauren Weingarden reveals Sullivan's eloquent articulation of nineteenth century romantic practices literary linguistic aesthetic spiritual and nationalistic and thus rescues Sullivan and his legacy from the narrow role imposed on him as a pioneer of twentieth century modernism Using three interpretive models discourse theory poststructural semiotic analysis and a pragmatic concept of sign functions she restores the integrity of Sullivan's artistic choices and his historical position as a culminating figure within nineteenth century romanticism By giving equal weight to Louis Sullivan's writings and designs Weingarden shows how he translated both Ruskin's tenets of Gothic naturalism and Whitman's poetry of the American landscape into elemental structural forms and organic ornamentation Viewed as a site where various romantic discourses converged Sullivan's oeuvre demands a cross disciplinary exploration of each discursive practice and its rules of accumulation exclusion reactivation The overarching theme of this study is the interrogation and restitution of those Foucauldian rules that enabled Sullivan to articulate architecture as a pictorial mode of landscape art which he considered co equal with the spiritual and didactic functions of landscape poetry Sullivan's City Zanten David Van, 2000-07-04 Finally the brilliant pencil execution of ornament in his old age became a surrogate for the great architectural projects realized earlier David Van Zanten's essay on how Sullivan's ornament shaped the city is illuminated by archival views and new color photographs by architectural photographer Cervin Robinson **BOOK JACKET** *American*

particularity of place and the diverse spaces of modern America began to sound alike as a universal new sound predominated. Although this sound clear, direct, efficient and nonreverberant had little to say about the physical spaces in which it was produced, it speaks volumes about the culture that created it. By listening to it, Thompson constructs a compelling new account of the experience of modernity in America.
